**Micrographic Enlarger**

1. Telephone conversation of this date with Captain Denton USN affirms the fact that Navy would like to be included on the list of those ordering micrographic enlargers. Navy wants one. The summary then as I would have it reads as follows:

- Army - 1
- Air Force - 3
- Navy - 1

2. I would now suggest that you look into the procedures or steps that the services would have to follow in order to transfer their funds to CIA for this joint procurement.
